

COMPUMAG 2013

Call for Exhibition and Sponsorship

**19th Conference
on the
Computation of Electromagnetic Fields**

**30 June – 4 July, 2013
Hilton Budapest Hotel
Budapest, Hungary**

INVITATION

Dear Sponsor, Dear Exhibitor,

It is our great pleasure to announce the 19th COMPUMAG Conference on the Computation of Electromagnetic Fields held in Budapest between 30 June – 4 July, 2013. Since it was organized for the first time in 1976 in Oxford this biannual conference series has always been one of the most important gatherings of researchers working in the field of computational electromagnetics. At the same time the organizers of Compumag conference always emphasized the importance of student participation.

Over the years Compumag has become the reference conference of researchers working in developing new numerical techniques for electromagnetics. This conference can be considered as the birth place of today's widely used commercial electromagnetic field calculation software. Furthermore it is a forum where devices and applications, which require nonstandard approach, are discussed. The areas of electromagnetic problems which can be successfully solved are always extended from conference to conference.

Nowadays, the existing numerical electromagnetic software makes the full engineering design and optimization process of electromagnetic devices possible on a computer. The cutting edge research in the field of nanotechnology, communications, medicine, power engineering, materials science, green technology, etc. extensively relies on commercial or freely available electromagnetic software. These topics, beside of more conventional research areas appear in the call of Compumag 2013.

If you are interested in exhibiting at the conference we can offer you floor space for your own stand or a full service booth. Diamond Congress Ltd., our partner for the meeting and exhibition organization, offers numerous alternatives for you to promote your business and can work closely with you to create a package tailored to your company's needs.

We are looking forward to meeting you in Budapest in 2013.

On behalf of the organizing committee,

Prof. József Pávó
Chairman of COMPUMAG 2013 Conference

MAIN TOPICS OF THE CONFERENCE

1. Static and Quasi-Static Fields
2. Wave Propagation
3. Electromagnetic Compatibility
4. Nano-Electromagnetic Computation and Applications
5. Bio-Electromagnetic Computation and Applications
6. Non-destructive Electromagnetic Inspection and Applications
7. Photonics and Optoelectronics
8. Material Modelling
9. Coupled Multi-physics Problems
10. Optimisation and Design
11. Numerical Techniques
12. Software Methodology
13. Electric Machines and Drives
14. Devices and Applications
15. Education
16. Benchmarking (TEAM)

REASONS FOR SPONSORING AND EXHIBITING

The Conference Organizing Committee invites your participation in the 2013 COMPUMAG Exhibit. Set for 30 June – 4 July, 2013, at the five-star Hotel Hilton located in the beautiful historical Castle District of Budapest, Hungary, the Compumag Exhibit provides a unique opportunity to present your products and services to over 500 attendees from all sectors of the fast growing computational electromagnetics, electrical engineering and materials sciences communities. The participants of COMPUMAG 2013 are mainly scientists and research engineers from academic and industrial institutions, opinion leaders and decision makers. In short, they are your present and new customers.
